

Presented by the Humphrey School of Public Affairs in partnership with the League of Minnesota Cities, Minnesota Association of Townships, the Association of Minnesota Counties, and the Minnesota School Board Association. The 10th Annual Awards have been made possible thanks to support by the Bush Foundation.

Minnesota faces the reality of an aging population, rising health care costs, and an increasing demand for government services with reduced revenue. Yet many counties, cities, townships, and schools have refused to let the traditional approaches of either increasing taxes or cutting spending exclusively dictate their responses to these challenges. Instead, they are pursuing innovation and service redesign.

Innovation and service redesign strategies being used include:

- Creating greater accountability
- Using incentives, targeting and funding to meet those in need
- Orchestrating competitive contracting
- Managing collaboration or consolidation
- Deploying prevention strategies that eliminate the need for a service
- Divesting current services to the community

The awards recognize the creative ways counties, cities, townships, and schools are making Minnesota better and doing things differently. In keeping with previous years, up to 20 local government entities will be recognized as award winners for their innovative work. In addition, the winner in each of the four categories will also receive a professional video highlighting their innovation work and a \$5,000 grant from the Bush Foundation to continue local government innovation and redesign work!
